GTR INDIA 2022 MUMBAI

GTR India returned to Mumbai on May 24, 2022 for an exclusive one-day gathering which reflected on the latest India market developments, from trade and export policy and new supply chain opportunities, to banking reform and credit access, fintech innovation, sustainability and the role of manufacturing, and trends impacting global export and trade dynamics.

The event welcomed the leading stakeholders across the Indian trade ecosystem, featured a full exhibition and offered that much missed opportunity for participants to network and connect with key experts, industry peers and potential clients. We welcomed close to 400 market leaders, who came together and discussed the country's trade and export prospects and priorities.

We look forward to seeing you again in Mumbai next year!
